ABOUT US

Technical Guftgu has began its journey back in 2018. And as the name suggests, our predominant objective is to educate Our Students in our native Language-Hindi and Urdu.Technical Guftgu is a company that aims to make technical education accessible and affordable for everyone. Consequently, in order to adhere to the aforementioned, we cannot compromise on our service quality. Our quality remains solid and does not depreciate under any circumstances.Our all instructors are Globally Certified and having more than 10 years of experience in their respective fields. Our Founder-Bhupinder Rajput himself loves to teach and take regular batches of Azure,AWS and Google Cloud. Currently we have Two Branches at Delhi and Dehradun with 20 Full-time Employees. Technical Guftgu is a Registered Trademark and MSME Registered Organisation.

Our Vision & Mission

VISION

To be a leading and First institute in india,who provides all technical trainings exclusively in hindi Language, producing skilled and competent professionals who can contribute to the development of our society and the nation.

MISSION

☞ Our Main Mission is to uplift a new generation of people specially from Rural area and Non-Technical Background, who don't know how to enter in I.T Sector.

☞ To promote Technical Trainings and I.T Courses in Our Own Hindi Language across india, which is easily accessible, and affordable by everyone.

☞ To promote Hindi Language as a First Language in the field of Software Development and Engineering.

☞ To develop Videos,Books,Notes and other content for all the high-end Technical courses in Hindi Language.

☞ To promote research and development in emerging and cutting-edge Technologies in Hindi Language.

Founder's Message

Bhupinder Rajput
Renowned Youtuber
Ph.D,M.Tech,MBA,B.Tech*

Greetings,
I am delighted to welcome you to our institute-Technical Guftgu, where we provide quality technical education and innovation to a diverse range of learners in our Own Language. Our institute was founded with a vision to be a leading institute of excellence in technical education and innovation, producing skilled and competent professionals who can contribute to the development of society and the nation. Our institute offers a wide range of technical courses that cover various domains such as DevOps, Docker and kubernetes,Linux, data science, artificial intelligence, cloud computing, cybersecurity, python programming etc. Our courses are designed to meet the current and future demands of the industry and the society, and are delivered by highly qualified and experienced faculty who are experts in their respective fields and are actively involved in research and innovation. Our institute has a student -centric approach that focuses on the holistic development of the students by providing them with academic guidance, career counseling, personal mentoring, and Interview Preparation. Our institute is committed to excellence in everything we do. We constantly strive to improve our quality of education and innovation by incorporating feedback from our stakeholders and adopting best practices from around the world.
We also adhere to the highest standards of ethics, integrity, and social responsibility in our actions. I invite you to join our institute and become a part of our vibrant and dynamic community. I assure you that you will have a rewarding and enriching experience at our institute that will prepare you for a successful future. Thank you for your interest in our Instituition.
I look forward to meeting you soon.
Warmly,
Bhupinder Rajput

College Campus Training

The primary objective of our college training program is to bridge the gap between industry and academia by instilling essential industrial skills in students so that they become employable working professionals. The training we provide enables the candidates to be skillful, boosting their confidence and grooming their overall personality. In consortium with parent technology companies like Microsoft, Oracle, Cisco, Red Hat, EC-Council, etc our programs adhere to the latest industry stadards so that the students become resourceful employees to the organizations.

Models under College Training Include:

☞ 6 Months / Weeks Summer Training Program
☞ 6 Months / Weeks Winter Training Program
☞ Project-based Training

Key Features of Our College Training Program Include:

☞ Inclusion of examples and scenarios fit for specific industries to provide a deeper understanding
☞ Providing theoretical as well as practical knowledge
☞ Training executed by certified trainers with an appropriate corporate background
☞ Pan-India recognition along with certification-oriented training
☞ Regular seminars and workshops along with placement assistance after the completion of the course

Our Success Stories

SANDEEP LAMBA || HCL Technologies
Past Profile: SRE || Current Profile: Devops Engineer
Course Taken-: Python Program

"This course gave me a good insight into how the Python works. The information is really well explained by Technical Guftgu trainer. It is well designed for IT and even non-IT background students. I hope for more courses like this in the future. I didn't expect that I will get such a deep knowledge with good explanation by tutor. I highly recommend this course to anyone who is interested in Python and wants to upgrade their skills in IT."

ALEY IMRAN || Currently working with
Tata 1mg as Assistant Manager IT
MSc IT - 2012 || Having 12 yrs experience
Past profile - Worked with Dabur Oncquest Laboratori.
Course Taken -: AWS 6 May 2023 Batch

"For sir First of all i appreciate his efforts for students, Hindi, & our TG (definitely we will succeed in our mission for our native language and our Country)
The way of talking, teaching logic, real time practical, makes them smart & Best."

Our Success Stories

NAMAN JAIN
Current Profile : Software Engineer
Courses Taken -: Aws , Azure 104 , Linux , Devops

"Dear Technical guftgu, it is amazing how easily you connect the most twisted concepts with real-life examples making it so much more interesting to study devops , cloud , linux . I have always been a little scared of this subject, but ever since you joined us, this subject feels like a piece of cake and my level of confidence have also increased considerably. I wanted to thank you with all my heart for being such an accommodative and understanding teacher to us"
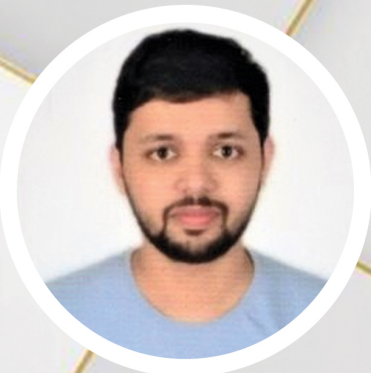

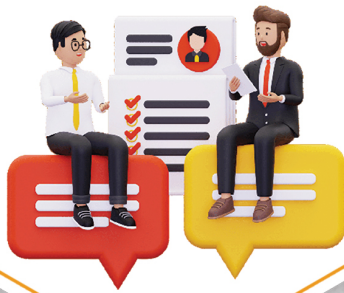

SAMBHAV SHARMA
(College Student)
Course Taken-: CCNA, Azure, Linux

"I am thankful to all the team of Technical Guftgu and specially Bhupinder sir for his kind behaviour and extra ordinary teaching skills. All the tutors on this platform are very good and the way of teaching is very nice. I joined three courses. CCNA, Azure & Linux Teachers are focus on students that is the main advantage of joining from this platform and doubts sessions are also conducted"

★★★★★ 4 days ago NEW

Bhupender Sir is the best trainer in latest technology. I have done few courses from him and found it's great. More importantly he taught in Hindi which helps to understand complex concepts easily.

👍 Like

★★★★★ 9 months ago

Bhupinder sir is best trainer. He clears the concept so precisely sothat you never forget. He used very simple language and brilliant in his content delivery. Lost of wishes for him. Anybody who wants to understand the term technology I mean any tech, just listen to him on YouTube and you will understand so easily. You will regret yourself that why you have not watched these videos earlier. I must say I have the same feeling but it's never too late for any begining. Once again, thanks Bhupinder Sir and his team for your excellent content on Technical Guftgu.

★★★★★ a year ago

Easiest way to learn from him.. Currently I am taking AWS cloud training and it was great experience. I love the way Bhupendra sir explains the things giving some stories examples and his Shayari k to kya Kehne 👏 👏

Really appreciate 👍

Thank you sir 🙏
